Western Seed and Irrigation Co.

FREMONT, NEB.

SEED GROWERS

FOR THE WHOLESALE TRADE ONLY.

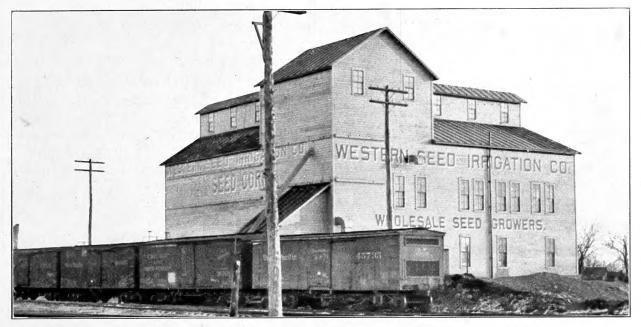

SPECIAL CONTRACT OFFER ORDER SHEET

CROPS OF 1904

SEED CORN and VINE SEEDS.

We beg to call your special attention to the following list representing the different varieties of Seeds that we are preparing to undertake to grow this coming season under the usual contract system, viz:—subject to crop and pro rata delivery in event of a short crop.

We give our personal care and attention to the detail work of our Seed Growing in all its branches, and claim with confidence that our stocks cannot be excelled in purity, quality, or any other respect, by any stocks obtainable from any other source.

SEED WAREHOUSE, WESTERN SEED & IRRIGATION CO.

BAGS-Extra at market value delivered at Fremont. DELIVERY-F. O. B. Fremont, Nebraska.

SHIPMENT—As soon after harvesting as practicable. On or before January 31, 1905.

EXTRA SELECTED-HOUSE DRIED-FIELD CORN.

Kernels of uniform size, thoroughly "tipped" and "butted." Light weight kernels removed by heavy exhaust Suction Air Blast. Tested before shipment and guaranteed to be of **not less than 85 per cent** good, strong germinating **vitality**. Quality to be of the highest grade obtainable by latest improved machinery. If desired, samples to be submitted before shipment to ascertain if customer wishes stock hand-picked, in which case **a charge of 15c per bushel** will be made to cover **actual cost of labor**—ordinarily hand-picking is not required. If the fall season, prior to cribbing crops, is unusually stormy, some of the grain may become rotten and discolored on the ear beneath the husk, and in such an event, as no machine has as yet been invented for discriminating between colors, the only remedy is by hand-picking. There is no profit to us in hand-picking corn and we exert every effort possible to make the quality such by machinery that hand-picking is unnecessary, but as we are always anxious to please our friends in trade, we will gladly have stocks hand-picked if so preferred.

WATER MELON.

We have made exhaustive open field tests of Water Melon Seeds grown in other sections of the country and have found in every instance, in comparison with our stocks grown under irrigation, that the crops produced from our seed were infinitely superior in every respect. As to the quality, it can be truthfully claimed that no stocks can excel those grown on the sandy soils of our Nebraska Prairie Valleys.
